THE GEORGE COBLEY Co.

General Merchants,
Frank

We Hat Pins made out of Real Roses

have just received 25 dozen new winter caps finished in the latest shapes, of catchy tweed patterns, navy blue and black. These caps are fitted with the finest quality of plucked fur bands. Prices from \$1.75 to \$2.00. Come in and see this excellent selection of winter caps.

Those left of the travellers samples of fur stoles, consisting of ladies and childrens stoles of different designs, are being offered at the same attractive values. There are no two of these stoles alike. You cannot afford to miss this opportunity.

Delamothie

Real Rose Hat Pins
It does not seem possible, yet it is true, that these Hat Pins are made out of live roses, and changed into metal by a secret process. This discovery is without doubt one of the most beautiful of all Hat Pins. No two are alike. Made in Finland to conform to the prevailing fashions in millinery. Six sizes at the following prices:
\$1.50, \$2.00, \$2.50,
\$3.00, \$3.75, \$4.50
Everybody is talking about them. Don't fail to come in and see them. These are the genuine DELAMOTHE Real Rose Hat Pins.

STOCKS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan, Alberta, the Yukon Territory, the Northwest Territories and British Columbia may be leased for a term of ten years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made to the Agent or Sub-Agent of the district in which the lands are situated.

In mineral territories the land must be described by sections, or half subdivisions of sections, and in non-mineral territory the tract applied for shall be sketched out.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available but not otherwise. Royalty shall be paid on the marketable output of the mine at the rate of five cents per ton.

Copy Lessee of coal mining rights, which are not being applied for, shall furnish the district Agent or Sub-Agent with a sworn statement that he has no interest in the land.

The lease will include the coal mining rights only but the lessee may be permitted to purchase whatever valuable surface rights are in consideration necessary for the working of the mine at the rate of \$20 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of the Dominion Lands.

OBSERVATIONS ON CAMPAIGN

NEED HONEST IN PRIVATE LIFE DISHONEST IN POLITICS.

HAVE PECULIAR VIEWS

Don't Think The End Justifies The Means No Matter How Desirable. Malignant Misrepresentation of Opponents—Minor Points Count in It.

It is a singular comment on one side of modern politics in Canada that men who in ordinary intercourse would scorn to utter a lie to gain advantage in business and who would denounce with the utmost vehemence any effort at misrepresentation in any matter with which they might be connected—except politics—may be found engaged in premeditated and/or at misrepresentation and an equally false method for the purpose of achieving political advantage for the party with which they are affiliated.

Just such men now own and control the Coleman Miner and John Herron is one of them. If you know these men you would not believe they could be guilty of an unworthy or a dishonest act in their every life yet as evidence that they are capable of sinking their natural probity in an effort to win success in politics, let us draw an illustration from the last issue of the Miner. In that issue the Miner refers to the expose of John Herron on the Chinese question and points to the instance of A. C. Beach having been included in the list of those who gave certificates of good character to Chinese who were not qualified to vote for Mr. Herron, and declares that The Frank Paper published the name of Mr. Beach in that list "for the purpose of deceiving the people."

The fact is that this paper need the name of Mr. Beach inadvertently and in last weeks issue apologized for so doing and fully and freely vindicated Mr. Beach. The issue of The Frank Paper containing that vindication and apology was before the man who wrote that article in the Miner when he wrote it yet he was unable of telling his readers that The Frank Paper purposely tried to deceive.

Again, the Miner goes back to land sales and says The Frank Paper represents that A. B. McDonald is not interested in such leases while Mr. McDonald on the stump admits he is interested in a lease. Here is what The Frank Paper actually said: "Mr. McDonald does not hold any land leases. The Glenagarry ranch company of which Mr. McDonald is the salaried manager, does hold a land lease. Mr. McDonald owns \$5000 of the stock of the company which is capitalized at \$10,000, no more." The words of the Miner were: "The Frank Paper says Mr. McDonald is not interested in such leases."

Could you believe such men capable of such grossly dishonest and premeditated misrepresentation?

Again, the Miner says: "If the people of the West desire to see such scandals as the Blairmore townsite deal, the Blairmore cemetery deal, the Glenagarry ranch lease, the Saskatchewan Valley land deal and other thefts of the people's lands put through, then let Laurier finish his work." The Blairmore townsite deal as all men know never did have any merit, the cemetery matter has been shown to have been the fault of the people of Blairmore themselves, the Glenagarry ranch lease is held by a company in which conservatives own between ninety two and ninety-three per cent of the stock and the Saskatchewan land deal has been the greatest blessing to Saskatchewan in settling that province of any known agency. And all the rest of the alleged cases of graft and theft have just as much merit as these.

The whole campaign being waged by these people is a farce with this sort of thing. It embodies nothing but misrepresentation, slander and assertion of premeditated falsehood. Does it not seem quite probable that

such men, men whom we know in our every day intercourse with them, as the soul of honor and spotless probity, could stoop to such methods in the hope of gaining political advantage? Yet here is the evidence you can't get away from it.

Peculiar to say the least isn't it?

Why do they not argue the real issues on their merits? Are the Grand Trunk Pacific railway, the Hudson Bay railway, the new land act, the free rural mail delivery issues good for Canada or not, if not why not formulate policies to supersede them that would redound to the good of the people of Canada in greater measure and go to the people on such issues?

But you neither hear nor see anything of that sort of thing. The one appeal to the people to defeat the government that would give the people such benefits is based upon slander and misrepresentation. Their position is best illustrated by the old story of the woodchuck and the three boys who wanted it. If it must like this:

A man who had caught a woodchuck met three boys and told them he would give the animal to the one who gave the best reasons for his political convictions. The first said he was a republican because Lincoln who freed the slaves was. The second was a populist because, like our socialist friends, he wanted to keep in the middle of the road. The third declared he wanted going to make any bones about it, he was a democrat because he wanted that woodchuck. The conservatives want the woodchuck. They are hungry for office and they don't care who knows it. To attain their end they are willing to resort to the most reprehensible measures.

John Herron, aided and abetted by his great personal friend, the editor of the Coleman Miner, is making a campaign for re-election on the issue of alleged dishonesty on the part of the liberal government yet from the pen of that worthy expounder of conservative doctrine emanates the following which appears in the last issue of the Miner: "We, of course, admit that crookedness did exist before in the government of Canada." These are the actual words of the Miner and refer to the former conservative government. What a wondrous and noble confession. Surely it will be good for the soul, is another boast by the Miner says: "If the people of Pincher Creek and The Pass DO THEIR DUTY, Mr. Herron will be returned. Now there is something of a paradox for you to ponder over. Mr. Herron's parade is an entire issue to an effort to make people believe the liberal government is rotten, admits its corruption was just as rotten and tells you that if you do your duty you will vote to return that party to power. If the Miner keeps on as readers soon will know which from either.

NOTICE

Take Notice that, under the provisions of sect. 222, Chap. 57, revised statutes of Canada, 1906 the Canadian Pacific Railway company intends to apply to the Board of Railway Commissioners for Canada, after the expiration of four weeks from the date of the first publication of this notice or as soon thereafter as the application can be heard, for authority to construct, operate and maintain branch lines as business expedients for the Rocky Mountains Cement Co., commencing from a point on the Great Northern branch of said railway at Blairmore, Alberta, and measured 491.4 feet westerly along center line of said branch from the intersection of the western limited 12th avenue running from thence in southeasterly directions, crossing block 8, Main street, 12th Avenue and Chatham street to and into the property of the said Cement Co., distances of 1244.4 feet and 800 feet from head blocks; the location of which said proposed branches is more particularly shown on a map or plan, profile and book of reference deposited in the Calgary Land Titles office on the 10th day of September 1906 as No. "R-141" notice of which deposit is also hereby given pursuant to the provisions of the said statute.

Dated this 17th September A. D. 1906.
W. R. Baker, Secretary.

LOOKS BRIGHT FOR McDONALD

PROGRESS OF CAMPAIGN SHOWS FAVORS LIBERAL CANDIDATE.

WILL CARRY THE PASS

Will Win Every Poll North of Grasmere—Large Majority Probable—Candidate Will Visit Pass 20th and 21st—Coming 12th and 14th.

As the political campaign progresses the indications become every day more favorable for A. B. McDonald, the liberal candidate. All pre-election signs now point to his election, probably by a very large majority.

The Pass has hitherto been considered a debatable ground and the supporters of John Herron have felt hitherto that if this district did not prove to be the stronghold of their candidate he would at least make a good showing in the mining camps. But they are fast losing confidence as Mr. McDonald's strength becomes manifest and there is at this time, every reason to believe Mr. McDonald will carry The Pass. Every taken by which the outcome of a political campaign may be judged at this distance from election day, gives Mr. McDonald good majorities in three camps of the district with a strong probability of his carrying every poll.

The Pincher Creek section of the riding is the only territory where Mr. Herron appears to have so much as a chance to break even while the word that comes from the north country is that Mr. McDonald will carry every poll north of Grasmere. The present outlook is that Mr. McDonald will have the largest majority of any successful candidate in Alberta with the exception of Frank Oliver and the possible exception of Dr. McIntyre.

A. B. McDonald, the liberal candidate will spend the 20th and 21st at The Pass and will visit all the camps. Mr. McDonald, during his two days stay in the district will make an effort to meet every elector or as nearly so as will be possible in the limited time at his disposal.

The central committee of the liberal association for the constituency has assigned the Hon. W. H. Cushing, minister of public works in the Alberta cabinet, to The Pass for two speaking engagements. Mr. Cushing will speak at Coleman on the evening of the 13th and at Frank the evening of the 14th. Mr. Cushing has proven himself so sincere and good a friend of this district that he is certain to receive a most cordial greeting and packed houses at both meetings. The Coleman meeting will be held in the new opera house at that place and the Frank meeting in a School Hall. Speaking will begin at eight o'clock. It is also hoped to secure the Hon. C. W. Cross, attorney general for Alberta and father of the compensation act, for a series of meetings in The Pass.

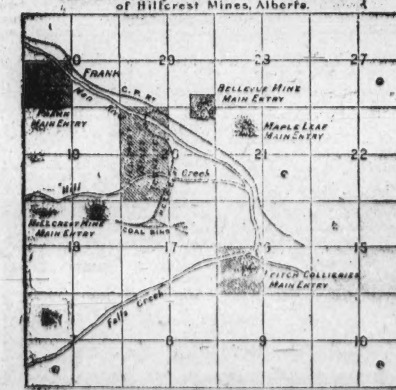

Candidate A. B. McDonald of the liberal party will deliver the last speech of the campaign to the Fischer Creek provincial riding. His itinerary for that week is as follows:

Monday, nomination day, at Macleod.
Tuesday, and Wednesday, the 20th and 21st, in The Pass.
Thursday 22nd, Mountain Hill.
Friday, 23rd, Yarrow.
Saturday, 24th, Spring Ridge.

John Harrington, candidate of the socialist party, spoke to a small audience at Miners Union Hall Tuesday evening. He delivered a very entertaining discourse, dealing impartially with the two old parties and endeavoring to show the merits of their interests lay in securing representation in the halls of legislation. In his peroration he frankly admitted he did not hope to be elected but he told his party members that were joined in a vote for at least one on the ground that they were as well vote for something and get nothing as to vote for nothing and get what they voted for.

HILLCREST THE BIRTHPLACE OF CANADA.

Sketch showing exact location of Townsite of Hillcrest Mines, Alberta.

(This townsite is the hub of this coal district)

The town of Hillcrest is situated within less than one mile of the main trunk of the Frank mine, within three-quarters of a mile of the Bellevue mine, within three-quarters of a mile of the Maple Leaf mine, within three-quarters of a mile of the Leitch Collieries and within one-half mile of the Hillcrest mine.

The Townsite Will be Open Shortly.

An hotel costing ten thousand dollars has just been finished and the furniture is being installed. There are already forty-seven buildings in the town. The Hillcrest Mine payroll averages between \$15,000 and \$20,000 per month while the combined payroll of the mines surrounding the town runs to about \$100,000 per month, all from mines within one mile of town.

Prices of lots will be announced shortly. Hillcrest coal has been on the market for two years and has by all tests proven itself the highest grade steam coal in Canada. It burns a white ash and is absolutely free from clinkers. For further particulars apply to

C. P. Hill, Hillcrest Mines, Alberta.

THURSDAY, OCT. 8, 1908.

WHERE DOES YOUR INTEREST LIE?

To the electors of Macleod constituency who may not be fully decided as to which way they ought to vote in the coming election, THE FRANK PAPER would appeal to the interest they feel in the general welfare of the constituency and to their own personal interest. For instance: If you engage in any business transaction, you aim is to see that the ledger shows a profit. If you hire a man to perform any sort of work for you, your interest lies in seeing that you get what you pay for. If these things are true it is not equally true that in selecting a man to represent your part of the country in the House of Commons the same business principle should be employed?

We do not believe any person would presume to gain the wisdom of this logic. We would ask you therefore, where does the interest of the constituency and where does your own personal interest lie? If you take this as the basis for deciding to which candidate you feel you ought to cast your vote, you will not go far wrong.

In deciding where the interest of Macleod constituency and your own interest lie, we would ask you to consider these points: Mr. Herron has served four years in the House of Commons and for that service the country has paid him \$10,000. He has asked you to consider what he has done for you in return. His strongest advocates, when called upon by this paper to enumerate the things he accomplished which brought any sort of concrete result to his district, pointed to but three things. One was that he instigated the lumber combine inquiry, another was that he offered a resolution to provide that workmen might safely reside in homesteads by having their families live on the land. The third was that he made a speech in the house advocating the exclusion of Chinese. Not another solitary instance do they cite. We would inquire in all sincerity, do you consider that adequate service for a remuneration of \$10,000? We would not detract an iota from the credit due Mr. Herron for the performance of these services but was it all you expected and all you have a right to expect from the man you send to Ottawa to represent you? And why did he not do more? We will tell you. Mr. Herron was in the opposition and was not only not in a position to accomplish results but in his fidelity to his party he consistently opposed every measure brought forward by the government which was calculated to benefit the west.

In contrast to this sort of thing, let us consider what might have been accomplished had a government member sat in Mr. Herron's stead and what we may expect to have accomplished if a member in sympathy with the government is elected this time.

First—Had a member in sympathy with the government sat in place of Mr. Herron, the measures advanced by the government for the benefit of the west would have been assisted and in one notable instance in particular we should no doubt have had a different result. Instead of the new land act applying to lands only as far west as the Calgary and Edmonton railway, the new act would without doubt have applied all the way to the mountains and hundreds of people who would greatly benefit by being able to secure additional land would have profited. A Liberal member would have voted and assisted the V.V. & E. railway bill designed for the benefit of southwest Canada. And as the list might be prolonged indefinitely. Mr. Herron, forgetting the direct interests of his constituents and paying all fidelity to his party, steadfastly opposed every measure calculated to develop

the west.

Again, we might have had a number of government buildings in the various towns in this constituency. Have we a solitary one? If we have THE FRANK PAPER does not know of it.

Secondly, what may we fairly expect if a member is elected who is in sympathy with the government? We do not believe the fondest dream of the most ardent conservative in Canada is that the Liberal government will be defeated. We do not believe Mr. Borden himself has the remotest idea of achieving that end. On the contrary we are positively sincere in asserting the belief that it is the firm conviction of everyone that the Laurier government will be returned. If the government is returned and Mr. Herron should be elected, he would be still in opposition and we could expect no greater results than he has given us in the past. We would simply present him with another \$10,000 for doing nothing and making himself a good fellow among his constituents. Under the practice that has always been followed in Canada under both conservative and Liberal rule, if the constituency or an individual wanted anything from the government, it would have first to be recommended by the defeated government candidate. Mr. Herron's recommendation would not help it. That is the rule and it matters not whether it is right or wrong it has always, as said, prevailed; and it will prevail again. Therefore whether Mr. McDonald is elected or defeated he will be our representative and the question therefore arises, would it be better that he should be our official member at Ottawa or our unofficial member at home? From which might we expect to receive the greater returns for our \$10,000, from Mr. Herron sitting as a figurehead at Ottawa while Mr. McDonald did all the work at home or from Mr. McDonald an active member at Ottawa with a vote in the house. Our inclination is to believe that the interest of our constituency and our personal interest would be vastly better served by having our member actually at Ottawa. He would uphold the efforts of Mr. Oliver in our behalf and we might reasonably expect to receive some of the concrete benefits in the way of public buildings etc. which come of having a sitting member at Ottawa whose sympathies are with the government.

Our opponents will no doubt deny this thought as mercenary and unworthy on that account, of being put forward as the actuating motive of the elector in casting his ballot but if they do we shall reply that it is not mercenary and that it is in the highest degree worthy for it is absolutely nothing more nor less than being guided by the plainest and commonest principle of business. It would indeed be different and a charge of mercenaryism might lie if there were any strong principle to be served by choosing an opposition member, for instance, if there were any truth in the charges of graft etc. which form the only issue in the slanderous and vicious campaign the conservatives are making. But that principle is lacking in this case. Canada never had a better or more conscientious government. The graft charges are not true nor are any of the other charges of irregularity or maladministration. And THE FRANK PAPER makes this broad statement on the highest authority, the authority of the Hon. Frank Oliver. We have heard Mr. Oliver tell the people on the public platform and he has told us in private conversation and he has taken the trouble to show us from the records and when Frank Oliver says this statement is true and that the slanderous charges are untrue, the people will believe him. Put that in the back of your head in order that you may not forget it. We would not like to be in the position of the man who would have the hardihood to stand before the people of Alberta and tell them that he questioned the truthfulness of any statement of fact made by Frank Oliver.

This being the case, the principle of electing an opposition member to keep the government straight is inoperative at this time and there is not only no reason why the elector should not follow the business principle which actuates his everyday life in deciding for whom he shall cast his ballot, but at the same time we ask you again therefore, where does your interest lie?

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 2 and 36, not reserved, may be homesteaded by any person who is sole head of a family or any male over 18 years of age, in the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situated.

A homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months residence upon and cultivation of the land in each year of the three years.

(2) If the father (or the mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon a farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon such land.

A six months notice in writing should be given to the Commissioners of Dominion Lands at Ottawa of intention to apply for patent.

Frank News in Brief

Alex Goyette, dealer in furniture and wall paper.

Dr. Ellis, dentist has closed his office in Frank and moved to Lethbridge.

John Herron will speak at the school house tomorrow evening from the conservative standpoint.

F. O. Hart, C.P.R. agent here, is away on a vacation. He is relieved by Mr. Thompson of Housner.

G. W. Bowker, managing director of the "41" market company, spent several days in The Pass this week.

John P. Marcellus, member of the legislature, is visiting The Pass accompanied by his daughter.

For Sale—A few highly bred and very handsome Black Minorca one year old chickens. A bargain if sold at once.

J. H. Naler returned Monday from his holidays spent in the east and will resume his position at the George Cobley company's store. F. G. Cherry who has relieved Mr. Naler, left for Winnipeg last evening.

The wreck of a freight train near Seven Persons Wednesday morning caused considerable interference with traffic on the Crow line. The west bound passenger did not get through until after 3 o'clock in the afternoon.

An election of a school trustee to fill the vacancy on the board caused by the death of R. Stevens, will be held at the school house tomorrow evening. At the same time nominations of candidates for the office of village councillor, also to succeed Mr. Stevens, will be made.

The liberal headquarters in the Goyette block are open every evening. There is an abundance of all manner of literature from which readers desirous of investigating the issues of the campaign can post themselves and the latest newspapers are on file. Any person regardless of party affiliation is most welcome to spend the evening there.

George Smith, livervman of Bellevue is under the care of Dr. McKenzie, suffering from congestion of the brain. Stories differ as to the manner in which he was injured. One report is to the effect that he was injured by a horse while another has it that he was assaulted. A friend's decline to give any information. The police were notified Wednesday but when an officer reached Bellevue no one could be found who would admit knowing anything about the case.

W. A. Doyl, chief license inspector for Alberta, spent Sunday in Frank.

W. D. McCallum, general agent of the Sun Life for Alberta, visited The Pass the last of the week.

The Blairmore ladies are giving a dance at the Blairmore opera house tomorrow evening.

Coleman had an eloquent session during the week. Ben Reese and Mrs. T. Merriman figure as the principals. The couple was overtaken at Moosejaw and brought back.

The opening dance to be given by Mrs. J. B. Ridd in the new hall she has just completed at Illierest, will be given tomorrow evening. A good time is assured all who attend.

The Rev. Taylor who has been appointed to succeed the Rev. Haddon in charge of the work of the Methodist church in this field, preached his first sermon Sunday evening.

Donald B. Gillis, of Butte Mont., visited his niece, Mrs. O'Hagan, in the week. Mr. Gillis is one of the most widely known and most successful of the younger generation of mining men of Montana and Nevada and is heavily interested in many of the famous mining properties of those states. Mr. Gillis is also much interested in politics and having been born in Canada, is familiar with politics on both sides of the line. As is usual with people acquainted with the issues in both countries, he is a liberal in Canada and a democrat in the states and is keenly anxious to see both parties win.

James Rielly of Calgary, distinguished citizen of Alberta and world traveler, spent Saturday and Sunday in Frank as the guest of Mark Drumm. Mr. Rielly, aside from other distinguished characteristics, is one of the oldest liberals in Alberta. He is known as the father of provincial autonomy, having been the first citizen to propose and advocate autonomy. He ran three times for the local assembly in territorial days on an autonomy platform and in each instance the followers of Mr. Hain were able to defeat him by raising the direct taxation bugaboo. It was Mr. Rielly who in a memorial speech, coined that term and eloquently fitting phrase: "Alberta, the Sirloin of Canada" in a description of the province he hoped to see reformed here. It is hardly possible that the electors of The Pass were favored by one or two speeches by Mr. Rielly before the campaign is over.

HEALTH Without MEDICINE

HEALTH CAN BE SAVED BY THIS NEW METHOD

All diseases are alike. It applies to all diseases in that the form of disease may be different but the cause is the same. No one can apply Oxydonor rightly without benefit. No one is now heritable in any form of disease until the prime conditions of life are lost by the irreparable destruction of some vital organs. Oxidation of the whole organism through the use of Oxydonor restores and remedies all diseases. In any disease condition as long as it is applied early enough. It has brought health and happiness to scores of miserable sufferers from Rheumatism (Sciatica, Inflammation, Muscular) Nervous troubles, Bright's Disease, Catarrh, Jaundice, Indigestion, Arteriosclerosis, Lung Trouble, Kernels, Liver, Kidney, Bladder and Stomach troubles, Pneumonia, Leptospira, Brucella, Paratyphoid, Cholera, Typhoid, etc.

Rev. J. H. Naler

Copyright 1917 by Dr. H. H. Naler

Mrs. J. H. Naler, Napolis, Alta., writes: "Received the Oxydonor and find it a source of great relief, although I have had it hardly a month. The first night I slept and rested better than for weeks and my bowels moved regularly every morning while I used the Oxydonor during the night."

My general health is greatly improved. For years I have been compelled to take a physic every day and been subject to severe headaches and nervousness, but find them all disappearing and how thankful I am. My children say I look ten years younger, and I was just sixty-nine years and the 5th of May."

To Our Patrons

and the General Public of The Pass:

Owing to our increasing trade in The Pass we have decided to place an "Ad" in The Frank Paper and let our friends and the general public know from time to time what we have to their advantage.

We claim to have the best Blacksmith and Carpenter Shops West of Winnipeg.

We have between four and five thousand dollars worth of machinery in these shops and everything, even to blowing the fire is run by steam. We have five blacksmiths and two wheelwrights. The combined result is that we are able to turn out work on the very shortest notice and you will find prices right. Trust us with your business and it will receive our careful attention. The next time we will tell you something about our furniture and machinery.

Yours for Business,
Scott Bros. Placer Creek.
